

Layer App DATA SHEET

The better way to build Revit apps, BIM workflows, and site surveys!

Layer helps you build flexible tools so that everyone has access to the same set of building data to make smarter decisions.

Every subscription includes live implementation help from a real architect or engineer to make it easy for you to get started.

The Return on your Layer Investment

| Example Apps | Competitor | Layer |
|---|------------|-----------------------------|
| FF&E Library, Vendor List, and Cut Sheets | \$99/mo | Included |
| Custom Project Templates | \$10/mo | Included |
| Punch lists with in-app photo storage | \$20/mo | Included |
| PDF Markups | \$20/mo | Included |
| Proposal & Resume Generation | \$19/mo | Included |
| Door, Room, Window, & Site Surveys | \$25/mo | Included |
| Installation Work Checklist | \$39/mo | Included |
| Actionable Meeting Minutes | \$6/mo | Included |
| Room Data Sheet Generation | \$10/mo | Included |
| Project Handover & Collaboration | \$8/mo | Included |
| All for a single price | | as low as \$40/mo |

Platform Features

- ✓ Unlimited collaborators, projects, and file storage.
- ✓ Training and on-boarding included at no additional cost.
- ✓ Best practice templates, workflows, and live support when you need it.
- ✓ 30 day backup & change archive in case you need to undo things.
- ✓ No-Code apps and completely customizable workflows to meet your needs.

Why Layer App?

- Replace functionality from multiple tools into a single flexible platform.
- Device & Operating System agnostic.
- Direct integration with Revit. API access for custom connections.
- No gated features or subscription levels.
- Collaborate with your team in real time even if they don't have access to Revit.
- Work in the field on or offline.
